September 10, 2020

Dear Parents, Grandparents and Guardians,

Bless the children of our world, especially those living in dangerous or frightening situations. Help the children who feel as if they are loved by no one; may they come to know Your love and be comforted by it. Amen

A few things have come up as we begin the school year. As you know, this has been quite a beginning. Most students are in person, but we do have quite a few who are learning virtually.

- Students who are virtual are not allowed to just turn off their camera or sound or leave the classroom unless the teacher tells them to do so.
- Please do not have noise in the background. I know that is hard to do, but the in-person students can hear it.
- When the teacher takes attendance, virtual students will be listed as such. I believe we have covered all of the procedures to log into Google Classroom/Meet.
- We are still receiving books from the state. As soon as they arrive, you will be notified to come and pick them up.
- All softcover workbooks are to be covered in clear contact paper. I know it is a pain, but it keeps the books in good shape for the year.

Please make sure that you are checking your child's temperature in the morning and assessing their overall health. The CDC recommends that you do these things at home before your child comes to school. If your child is sick, please keep them home. If we call you that your child is sick, please come over as soon as you possible or have a designated person who can pick up your child. If this person is someone not on your list for pick-up, please call the office and let us know who would be coming. This is for the safety of your children.

PLEASE keep your telephone voicemail clear. If your mailbox is full, please empty it so we can reach you if we need to. Also, please make sure we have working telephone numbers. If you should change your number, please let us know immediately.

All of the forms sent by the nurse need to be returned to school as soon as possible. Sign off forms for the handbook and technology need to be sent in as well.

Next week is Back to School Night for grades 1-8. It will be virtual this year. Each teacher will prepare a video and direct you where to go. They will be available for questions after their presentation. I will record a short video for you as well. More information will be coming home as to the times and days for each grade.

***Parents, do not pull into the school yard during the day. If you have to drop something off, please park behind the church and walk around to the office. It is dangerous to pull into the yard as children could be walking to gym or recess. Thank you for your cooperation.

I am sending home the first fundraiser flyer for your perusal. I want to let you know, that when you participate in a fundraiser, the money comes back to the school for things that we need. This year, we had our new PA system put in, telephones in every classroom and a new network. The Home and School worked extremely hard to raise the money that was needed. Thank you for your continued support.

If you call the school and no one answers, please leave a message. Sometimes, we get very busy with a sick child, etc. and we are not at our desks. Your call is important to us and we will return it as soon as we can.
Thank you.

Have a great weekend! God bless you.

Sincerely,

Dr. Worrilow
